Dear Dr. Margarita Consolacion C. Ballesteros,

10 June 2022

I am very much pleased to inform you that Institute of APEC Collaborative Education (IACE) is planning to organize **ALCoB ICT Volunteer (AIV, hereafter) Teacher Forum and ICT Virtual Training**, which is hosted by the **the Ministry of Education in Korea**. 160 teachers from Malaysia, Indonesia, the Philippines, and Thailand will participate from 5th to 26th August.

Since proposed in 2001, AIV has been contributing to **narrowing the digital divide**, particularly of teachers, in the region **for the past 20 years** in close cooperation with member economies by providing a locus for teachers in the region to **exchange best practices of utilizing ICT in education**.

The 2022 AIV Teacher Forum and ICT Virtual Training aims to enhance digital literacy and understand the culture through the interaction between the teachers in the post-pandemic era, under the theme of *'Balancing Digital and Cultural Competencies of Teachers in the Connected APEC Region'*.

In this regard, it would be highly appreciated if your Ministry could nominate **40 outstanding teachers** considering school levels and gender ratio (more than 50% female, advisable) **no later than 8 July**. In addition, please give us **consultation regarding tariff exemption of 80 ICT kits** – Codewiz Basic kit: Arc Reactor kit: AI Lamp kit.

You are kindly advised to find attachments for detailed information on the training. Should you need any further assistance, Ms. Soyeon Lee (soyeon.lee@alcob.org, +82-53-719-2948) is willing to assist you.

Best regards,

Dr. Jungehan Cha,
Executive Director
Institute of APEC Collaborative Education

Policy Partnership on Women and the Economy and the APEC Business Advisory Council (ABAC). HRDWG also cooperates with other international organizations such as the Association of Pacific Rim Universities; the United Nations Educational, Scientific and Cultural Organisation (UNESCO); the Organisation for Economic Co-operation and Development (OECD); and the International Labor Organisation.

Another partner organization of APEC is the Institute of APEC Collaborative Education (IACE) based in Korea. Their objectives include:

- Promoting talent development and exchange in the APEC region to enhance Korea's nationwide education;
- Laying the foundation for an international education cooperation network in the APEC region;
- Establish a human resource development hub for international education cooperation and HRD; and
- Ongoing research and sharing of achievement on the future education model.

In partnership with IACE, HRDWG established the APEC Learning Community Builder (ALCoB). It is one of the most represented human networks in the APEC region and a key factor of the APEC Future Education Consortium and APEC Learning Community for shared prosperity. ALCoB consists of APEC member economies' educational leading teachers, learners, supporters, education administrations, and scholars who are getting together to materialize the ALCoM (APEC Learning Community) based on Autonomy, Sharing, Cooperation and Volunteerism. ALCoB-EC (ALCoB Entrepreneur Committee) contributes to ALCoB projects as one of the ALCoB supporters.

II. ALCoB ICT VOLUNTEER

ALCoB ICT Volunteer (AIV), formerly named ALCoB Internet Volunteer, is an official APEC project that contributes to narrowing the digital divide in the APEC region by sharing Korea's experience and know-how on ICT and e-Learning education which is an important avenue for the Philippines to improve on the use and integration of technology. Through the experts and teachers dispatched annually to four (4) APEC economies under the APEC Learning Community for Shared Prosperity (ALCoM) by the Institute of APEC Collaborative Education (IACE), APEC has helped a lot of schools, teachers, and students.

The first AIV Workshop in partnership with DepEd, through the International Cooperation Office (ICO), was held in Quezon City in 2018, gathering ICT teachers from various schools in Luzon. In 2019, it was conducted in Surigao City with participants from Mindanao. The year 2020 was groundbreaking as the AIV was transformed into an online event and held through a webinar and training. Due to the global pandemic crisis, the conduct of the AIV in Indonesia and the Philippines was held virtually for the first time. In the Philippines, the training materials shipped from Korea for the hands-on activities were individually distributed to the participants from the National Capital Region and they completed the training program from their respective schools or homes. Despite the adjustments and the

challenges, the virtual training was successfully completed.

Last year, the Institute of APEC Collaborative Education (IACE) under the auspice of the Ministry of Education (MOE), Republic of Korea, decided to have the 2021 ALCoB ICT Volunteer (AIV) through a webinar and online training for the second time. The 2021 AIV Online Forum was successfully held on 10-11 June 2021 with speakers from SEAMEO, the University of Hong Kong, and teachers and school heads from Indonesia, the Republic of Korea, Malaysia, the Philippines, and Thailand. The said online forum highlighted the impacts of the COVID-19 pandemic on education and the economy, education responses, and the prospects in a

post-pandemic future. The two sessions were broadcasted on the ALCoB YouTube channel and ALCoB and DepEd-International Cooperation Office Facebook pages. The 2021 AIV Virtual Training with the theme "Building resilience in education against the COVID-19 pandemic by enhancing digital and cultural literacy of teachers in the APEC region" was held from August to October 2021, targeting participants from Indonesia, Malaysia, the Philippines, and Thailand.

The **2022 AIV Teacher Forum and ICT Virtual Training** aims to enhance digital literacy and understand the culture through the interaction between the teachers in the post-pandemic era, under the theme of **"Balancing Digital and Cultural Competencies of Teachers in the Connected APEC Region."** It is expected that 160 teachers from Malaysia, Indonesia, the Philippines, and Thailand will participate from **05-26 August 2022**.

III. KEY OBJECTIVES

Its overarching objective is to share an inter-regional comparative perspective on usage and impact of ICT in the school curriculum and capacity building of participants. More specifically, it aims to:

- Present developed materials on knowledge and understanding of teaching with the best practice of ICT usage;
- Promote teachers' competencies on the integration of ICT in teaching and learning, to address diverse needs of local education context;
- Present and discuss guidelines for the design and practice of teaching and management grounded on ICT integration; and
